

## FOOD PRICES NOW HIGHEST IN HISTORY OF UNITED STATES

GOVERNMENT STATISTICS SHOW  
RISE OVER COST OF PRE-  
CEDING TWO YEARS.

### 2 PER CENT INCREASE OVER 1914

Advance Since 1912 Has Been Five  
and One-Half Per Cent—  
Flour Declines.

Washington, June 16.—The cost of living in the United States is higher now than it ever has been before. This fact is shown in statistics which the United States department of labor has just published in regard to retail prices in the United States. These statistics show that for fifteen articles which are served on the table of the workingman in the United States the average price for the year 1914 was 2 per cent higher than in 1913, and about 5 1/2 per cent higher than in 1912. In other words, the American workingman is now paying an average price of 102 for what he got in 1913 for 100 per cent and in 1912 for 97.4 per cent. The statistics show that the cost of living has increased steadily for these fifteen articles since 1907, when the average price was only 81.9. In 1908 it jumped to 84.2, in 1909 to 88.6, in 1910 to 92.9, in 1911 to 91.9 and so on up to 102, the average price which the American workingman paid in 1914.

These figures show that the highest prices in 1914 were reached in September, when the price of all foods was 7.1 per cent higher than the average price for 1913. The lowest point was reached in April when the price was 3.5 per cent lower than the average price in 1913.

The figures show that a sirloin steak, whose cost was represented by the figures 91 for 1912, now costs 102.5. A round steak, which cost 89.2 in 1912 has jumped to 105.7 in 1914.

#### Some of the Boosts.

Other comparisons of 1912 with the year 1914—the first figures being 1912 and the second 1914—are as follows: Rib roast, 93.6, 103.1; pork chops 91.2, 104.6; smoked bacon, 90.5, 101.8; smoked ham, 90.5, 101.6; lard, 93.6, 98.6; hens, 93.4, 102.1; flour, 105.1, 103.8; corn meal, 101.7, 105.2; eggs, 99, 102.3; creamery butter, 97.6, 94.4; Irish potatoes, 132, 103.2; sugar granulated, 112, 108.1; fresh milk, 97.4, 100.5.

The figures also show that it is costing the average American about a quarter more now than it did in 1907 to live.

#### West Not Hit So Hard.

According to the figures the western part of the United States has not been as hard hit as others. The average relative price in the western division for instance, was only 100.3, compared with 102 in the North Atlantic division 102.2, in the South Atlantic division and 102.4 in the North Central division. The figures for the South Central division were 101.8.

#### FASHIONS BACK IN PARIS.

Paris, June 16.—Warm weather has finally brought fashion back to the Bois de Boulogne—war fashions particularly. The other morning were noticed taking their morning ride a pretty American girl in the costume of a boy scout and an English girl in khaki leggings, flat crowned cap and all. On foot was another girl in a blue skirt, giving a perfect illusion of dark blue trousers with a black stripe down the legs. There was also a pretty blonde with the blouse of a marine and a brunette in a caniniere red tunic and pale blue skirt. Horizon blue tunics, in perfect imitation of the new regulation infantry blue, with green and red trimmings are now very common. The only war costume that is not closely imitated in extreme fashions is the red cross; it is prohibited by government decree.

## Conductor Must Compile Data Concerning Operation of Train

If you see the conductor on your train scratching his head, counting on his fingers, running up and down excitedly on the station platform or throwing up his hands in despair do not be surprised.

Every passenger conductor on the steam roads has been instructed that he must compile an encyclopedia of information on every detail connected with his train on every run for fourteen days. The order becomes effective Saturday.

Among the things he must do are these:

Keep a list of every ticket, number of the ticket, mileage and price of the fare.

Count every passenger entering or leaving the train at every station.

Keep a record of the exact number of pounds of coal used by the engine.

## Chicago's Big Auto Race Is Postponed Week; Strike Cause

Big Meeting Following  
Conference

**BULLETIN.**

Chicago, June 16.—The announcement that the 500-mile automobile race is to be held June 26 instead of June 19, stands despite the settlement of the street car strike.

(Special to Telegraph)

Chicago, June 16.—The following statement, postponing Chicago's first 500 mile auto derby for one week, was issued by the Chicago Automobile club, under whose auspices the big race was to have been held at the new \$1,000,000 speedway park next Saturday. The statement was issued by Referee Harry Vissering, following a meeting at the club house last evening.

"Chicago is in the throes of a strike of the employees of the surface and elevated traction lines. Conditions are rapidly adjusting themselves to the unprecedented upheaval; but fearing, however, that these conditions may not be normal before Saturday, June 19, I, as referee, have decided that the race shall be postponed from Saturday, June 19, to Saturday, June 26, at 10 o'clock a. m. The Chicago Automobile club, promoters of the meet, is determined to protect the interests of the great number of out of town patrons as well as the local ticket holders."

## GOVERNMENT PLANS WEATHER INFORMATION

OBSERVATION OF RELATIVE HUMIDITY IN MIDDLE OF DAY TO BE ADDED.

Washington, D. C., June 16.—The relative humidity in the middle of the day will hereafter be included in the weather reports furnished daily by the Weather Bureau to the newspapers. At present observations of the relative humidity are taken at 8 o'clock in the morning and 8 o'clock in the evening, but at these times the temperature is likely to be much lower and the relative humidity much higher than in the middle of the day. An extra observation of the relative humidity will therefore be taken probably at 2 p. m.

This additional information is expected to be not only of general interest to the public at large, but of practical value in certain branches of manufacturing. The humidity plays, for example, an important part in cotton spinning, and in many textile mills it is necessary to increase it by artificial means. An observation of the relative humidity at 2 p. m. will indicate much more accurately working conditions than figures obtained at the beginning of the day.

During his stay in this country some of the utterances of Dr. Dernburg caused a great deal of feeling and for the few weeks prior to his departure he was silent. Before he sailed France and England guaranteed him safe passage. The accompanying photograph of Dr. Dernburg and his wife was taken on the day before he sailed.

The parents of the children now reside in this city on East Second street and they want the children to make their home with them, but the grand parents refused to give them up, hence the action. ## C.&N.W. Handled 100,000 Passengers In New Terminal

On account of the large number of suburban trains that are now being operated by the Northwestern road out of the Madison street station, Chicago, on account of the tie-up of the street car lines by the strike, between the hours of 5 and 7 o'clock the regular train service is being interfered with. Last evening trains number 11 and 25, due here at 8:40 and 8:57 p. m. were over an hour late in reaching Dixon, following train No. 1 into this city. The crowd was so great on the platform in the train shed that it was with difficulty that the coaches on the train could be reached and the station employees had great difficulty in getting the baggage trucks through to the cars.

Chicago, June 16.—The Chicago & Northwestern railroad met the situation face to face at its big Madison

## CHICAGO STREET CAR MEN REACH AN AGREEMENT

MAYOR THOMPSON LOCKED THE  
DOORS OF OFFICE—DEMAND-  
ED ARBITRATION

### MAYOR IS THIRD ARBITRATOR

Is Agreed Upon Quickly By Both  
Sides—Cars Resume Service  
Today

(Associated Press)  
Chicago, June 16.—Peace in the strike of Chicago's 14,000 street car men was restored at 5 o'clock this morning, when it was agreed that all points at issue between the companies and the men shall be settled by arbitration. The decision was reached after a fifteen-hour conference, during which Mayor Thompson locked the doors of his office and announced that none could leave until a solution was reached.

#### Mayor Third Arbitrator

Both sides agreed upon Mayor Thompson as the third arbitrator. He was suggested by President Busby of the surface lines, and was quickly agreed upon by the labor leaders. The sessions of the board of arbitration will probably begin early next week.

#### Resume Work Today

The operation of all lines will be resumed as quickly as the men can be notified. Many employees were already at the barns, but the announcement of the settlement of the strike came too late to start cars for the rush hour early today.

#### "Union Train"

The first elevated train from the North Side reached the loop at 7 o'clock, bearing a large sign "Union Train."

The traction companies have wired eastern labor, agencies not to employ more strike breakers, 6,000 of whom are on their way to Chicago. 1,600 arrived late last night.

## SUPERVISORS PAID VISIT TO CO. HOME

INSPECTED LEE COUNTY FARM,  
NEW INFIRMARY AND  
HAD DINNER.

At the session of the Board of Supervisors this morning the Printing and Claims committee made their reports and the claims as allowed were read. The list of grand jurors as selected for the September term of the circuit court were then read. The Board then adjourned until 3:30 o'clock this afternoon and all left for the County Home to be guests at dinner of Superintendent Clyde Wicher. The rain of last night and this forenoon had left the roads leading to the home rather muddy but nevertheless all members of the board and county officials together with a few invited friends left for there shortly after 11 o'clock where a sumptuous dinner was in waiting. The members of the board and county officials were seated to the first table and it was found necessary to prepare the tables a second time. A three-course dinner was served and all did justice to the excellent spread.

## 'HOME GUARDS' ARE HITTING BALL FOR 308 TEAM AVERAGE

DIXON BUNCH HAS MADE 48 HITS AND 38 RUNS IN 156 TIMES AT BAT.

### LIGHTNER IS HARDEST HITTER

In Four Games He Has Pounded 147 for Big Average of 538 Per Cent.

The Clinton Independents, who came to Dixon next Sunday to play off the 3 to 2 tie game between the two teams two weeks ago, will probably bring two or three new men, as they learned that the team of Dixon "Home Guards" is much faster than thought in the Iowa city. And because of the interest that game aroused, it is sure that one of the biggest crowds of the season will turn out Sunday to encourage the locals.

That the Dixon team is one of more merit than many have believed is shown by their record for the season, for the book shows that Prof. Stratton's sluggers have not been defeated, the tied score in the Clinton game being the nearest to a defeat the locals have come. The record for the season thus far is:

Dixon, 8; Freeport, 1.  
Dixon, 6; Rockford, 0.  
Dixon, 12; Rockford, 7.  
Dixon, 3; Clinton, 3.  
Dixon, 8; Sterling, 3.

In the five games Dixon has made a total of 37 runs to their opponents' 14.

#### Is Hard Hitting Team.

One decidedly good reason for the team's excellent record is the hitting ability possessed among the eleven players who make up the regular organization. The score book shows that in the five games played the bunch has hit for a team average of 308. They have made 38 runs out of 48 hits in 156 times at bat.

#### Lightner Sets Pace.

Lightner, the clever, all-around pitcher and infielder, is setting the pace for the batters, with an average of 538. The average of the players to date:

Player	G	AB	R	H	Per
Lightner	4	13	4	7	538
Hogan	5	17	5	7	412
Jarkin	5	17	7	6	353
Devine	5	19	6	6	316
Pickton	5	16	4	5	312
Duffy	4	16	5	5	312
Stratton	3	4	1	1	250
Huber	3	8	1	2	250
Whitebread	5	14	3	4	214

## COMB SAGE TEA IN LIFELESS, GRAY HAIR

Look young! Common garden Sage and Sulphur darkens so naturally nobody can tell

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant.

## MOSCISKA CAPTURED BY AUSTRO-GERMANS

Galician Town Under Desperate Attack Since June 8.

Berlin, June 16.—(Via London).—Official announcement was made at army headquarters that the Austro-German forces operating in Galicia have captured the town of Mosciska.

Mosciska is situated on the River Wyszynka and is an important town on the railway running between Przemyśl and Lemberg. It is thirty-seven miles west of the Galician capital. The struggle for this position has been particularly desperate since June 8, when the Austro-German forces opened the attack on the place with an extremely active artillery fire.

## DRAW LINE ABOUT TRIESTE

Italians Near Tarvis Which Commands Principal Railroad.

Rome, June 16.—A statement issued by the Italian war office says that the army which has been gradually pressing on toward Tarvis is now bombarding Marbognetto.

This town, where there is an old and picturesque fortress on a high summit, is but a few miles from Tarvis. The Vienna-Trieste railroad runs through Tarvis. Consequently if the Italian forces succeed in taking this town Trieste will be left with but one line of rail communication over which supplies can be shipped.

GLACIERS.

A glacier is a large collection of many miles long. They are also a

thousand feet thick. Most glaciers are in a very poor state of preservation

and have crevasses. A crevasse is a season crack about ten feet wide and a few hundred feet deep. When a tour

ist steps into a crevasse he usually stays there until the glacier carries him down to its terminals and deliv

ers him in a fine state of preservation about 49 years later.

The most remarkable thing about the glacier is its motion. A glacier does not make as much noise as a

nineteen year old boy running his father's automobile, but it gets there just the same. It has a relentless forward movement which nothing can

stop—not even a federal judge with an injunction. Still it is not hard to

dodge a glacier. A moderately active man can keep out of its way. The

most agile glaciers move about one inch an hour. How pleasant it must be to live in Switzerland and to come

down week after week to wave goodbye to a personal friend who is taking a trip on a glacier.

Millions of years ago most of the world was covered with glaciers and they came down as far as New York

City. These happy days have gone, however, and the New Yorker who

wants ice has to tip the ice man for carrying 100 pounds of it up four

flights between his thumb and forefinger.

## PRESIDENT SEES PEACE IN MEXICO

Wilson and Villa Washington Agent Express Optimism.

## HALTING RED CROSS DENIED

Mexico City Authorities Warn Foreigners Against Sending Out Reports of Famine and Loot—Nelson O'Shaughnessy May Be Sent Back to the Southern Republic.

Washington, June 16.—Statements made by President Wilson and Manuel Bonilla, the envoy of General Villa, indicated an optimistic view regarding an early peaceful settlement of affairs in Mexico. President Wilson told callers that the situation in Mexico seems to be taking shape.

"A peaceful arrangement can be made, and I have very strong hopes that it will be reached," said Bonilla. The incident of the holding up of Red Cross supplies at Piedras Negras by General Rosalio Hernandez, a Villa commander, which created alarm, was considerably cleared by the receipt of the following telegram at the Villa agency here:

"Piedras Negras, June 15, 1915.—I have never refused to let provisions from the Red Cross go to Monclova and only delayed my answer awaiting further instructions from General Villa, who has already ordered all kinds of guarantees to the Red Cross. I deeply appreciate the philanthropic services of the Red Cross to our people.

General Rosalio Hernandez."

O'Shaughnessy May Go Back.

Coupled with these developments came the discovery that Nelson O'Shaughnessy, former charge d'affairs in Mexico City for the United States, has been recalled from Europe, presumably to be sent back to Mexico. The belief exists here that the president intends to send him to General Carranza and General Villa in an effort to induce them to agree to an armistice pending peace negotiations.

Would Suppress Famine News.

Vera Cruz, June 16.—Peremptory notice was served on the International committee in Mexico City by the so-called "sovereign convention" to quit cabling Washington reports of the horrors of life in Mexico City during these days or be expelled from the country.

Through Ismael Palafox, the acting foreign minister, the decision of the convention was conveyed to the Brazilian minister. Senor Palafox also set forth the provisions of article 33 of the almost forgotten Mexican constitution, which prohibits, under penalty of expulsion from the country "pernicious activities" of foreigners in the political affairs of Mexico.

## SOCIETY PEOPLE ARRESTED

Wealthy Scion and Young Woman Friend Accused of Burglaries.

Seaside, E. I., June 15.—A sensation was occasioned here when it became known that Donald Clapham, the son of Mr. and Mrs. Alfred Clapham, wealthy and respected residents of this village, and Mrs. John Conlin, who prefers to be known by her maiden name, Ruth Taylor, the beautiful daughter of Mrs. Lucinda B. Taylor of this place, had been arrested on the charge of larceny and held in \$1,000 bail each.

The accusation grew out of the discovery that several summer cottages had been robbed during the winter.

L. H. Smith went to Marengo today on business.

## ELDENA DREW FIRST DEFEAT OF SEASON

SCORE OF DANDY GAME SUNDAY AFTERNOON WAS 7 TO 6

Eldena met their first defeat this season by the fast Ohio team at Eldena Sunday by the score of 7 to 6.

This was one of the best contests this season with the exception of one, in which some bad plays were made, allowing Ohio to get in the lead.

Ohio played good ball, although Lievan of Eldena outpitched Buckley of Ohio, getting 11 strikeouts and allowing but 6 hits, while Buckley got but 6 strikeouts to his credit, and was touched for 8 hits.

Next Sunday Eldena will meet the Lee Center bunch at Eldena and a lively contest is expected.

## ASHTON

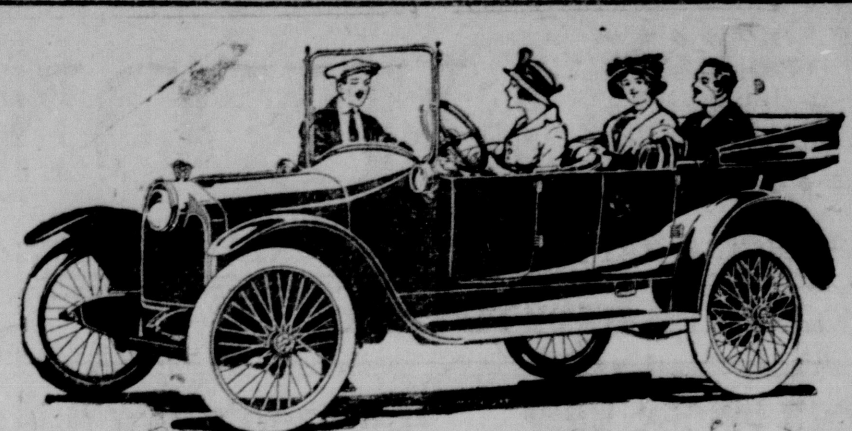

Ashton, June 16.—The community picnic held on Tuesday will be a day long remembered by all present. A perfect June day added greatly to the pleasantness of the occasion. Mr Hunt kindly allowed the use of the beautiful woods and everything possible was done to add to the enjoyment of the day. The two bands were very liberal in furnishing music and this was a big drawing card. The sports were very exciting for two hours and a half in the morning. In the afternoon the ball game was the center of attraction. Thanks is due to John Absher, the initial promoter of the picnic for the time and labor devoted to making the day a success.

Mr. and Mrs. John Killmer and Mr. and Mrs. Floyd Attig returned home yesterday from their trip to the Panama Exposition, at San Francisco.

Angler Bros. Show is to be in Ashton tomorrow night. This show makes its appearance each year and usually has a fine band. Two band concerts will be given, at noon and at 7:30.

At the community picnic everyone who had bought a season ticket to the Chautauqua course were tags with "I have bought" on them. About 160 tickets were sold on that day. A fine program is planned.

Mr. and Mrs. Henry Cupp have entertained Mrs. Roy Johnson and

With Mrs. Considine at the organ, Mrs. Schenker, of Sterling, and John Long, uncle of the bride, sang a beautiful duet, the wedding march sounded forth, and the couple with their attendants took their places at the altar. The bride's cousin, Miss Anna McCormick, of Harmon, served as bridesmaid and Thomas H. Long, brother of the bride, attended the groom. Pink and white roses combined with greenery made beautiful the church, where the old, but ever new ceremony was performed, the ring service being used.

The bride was very handsomely gowned in white satin messaline, with overdress of shadow lace, pearl trimmed, and wore a picture hat in white. Bride's roses were carried. "I want it distinctly understood neither of us are quitters," said Miss McAdoo. "We left because our time as nurses had expired and because my father demanded I should return. As soon as I am rested I want to return for the work was most interesting and nurses are needed." Miss Britton confirmed her chum's statement and declared that she, too, was determined to return to nursing duty.

**THE HOPE OF THE WORLD.**  
Recently Henry Sienkiewicz, the author of "Quo Vadis," sent a letter to the Philadelphia Polish Emergency association in which he declared the United States has become the hope of the world. Nearly all the world is at war and America alone of the great nations is at peace. Says Mr. Sienkiewicz:

It seems that the principles of Christian love and brotherhood, banished from Europe, had to cross the ocean in search of refuge, and they found it in the heart of the American citizens. Their generosity has saved thousands of unfortunates from starvation, but the task of America is not yet accomplished; with God's help she will in the following years become the conscience of the world and propagate ideas of justice, such as the triumph of law over force and the restitution of freedom to all oppressed nations, the realization of those principles being the sole guarantee of lasting peace and of a happy future for mankind. The higher the United States will raise this standard the greater and the more blessed will be their worldly missions. It is a difficult task, but the American nation is generous and powerful enough to accomplish it. The eyes of the civilized world are now fixed on America—especially those who suffer look up to her with hope.

The dominant idea, the single thought in Europe today is not how to build, how to save, how to improve, but how to kill, how to destroy, how to tear down. No attention is paid to the needs of humanity, nothing is done to assist in human betterment. Distrust disorders the old world. Love and justice seem ropes of sand.

Samaritan like we go to the rescue of millions left by war to starve. To us millions of sufferers look for sustenance and they have not looked in vain. In this amazing time of stress, we stand at the cross roads helping all who pass by.

But their need is more than food and raiment. Their hope is gone, their future is black with despair. They hunger for peace for the chance to go forward, for the opportunity to advance.

Here is our chance, our mission, here is where we can become the hope of the world. This nation must personify peace. We must become the world's beacon light. We must prevent future wars. We must be in position so that troubled nations can look to us as the peace-maker, the one nation ready to mediate, to arbitrate and to direct back to the path of right, justice and honor.

We occupy that proud position today. No nation has a thing we covet. We seek no territory that belongs to another. There are no ports, no seas that we want. We have not, will not meddle with the affairs of Europe. On the contrary, we have a kindly feeling for all. We wish them all well.

These shall be our examples, our precepts. Thus we may stand as an elder brother ready to serve where we can serve in the cause of humanity. And this is our position. It is grandly, clearly stated in the president's note to Germany.

The government of the United States is happy to observe that your excellency's note closes with the intimation that the imperial German government is willing, now as before, to accept the good offices of the United States in an attempt to come to an understanding with the government of Great Britain, by which the character and conditions of the war upon the sea may be changed. The government of the United States would consider it a privilege thus to serve its friends and the world. It stands ready at any time to convey to either government any intimation or suggestion the other may be willing to have it convey and cordially invites the imperial German government to make use of its services in this way at its convenience. The whole world is concerned in anything that may bring about even a partial accommodation of interest or in any way mitigate the terrors of the present distressing conflict.

We prove our purpose to be mankind's friend, to be the hope of "the world."

**BUILD IT RIGHT.**

The Lee County Board of Supervisors did the sensible thing when it authorized its building committee to alter the original plans and specifications in order that a different system of windows might be installed. The windows called for in the specifications were found to be of a type that would not endure. The new ones will cost a little more but they will always be in good condition. Lee county is building a new county home and spending considerable money. It wants a building that will be a credit to the county and when so much money is being expended for the improvement it would not be economy to stint in any part of the construction. We believe the special building committee will turn out a good product, for Architect Vaile's plan is a good one and Contractor McAlpine will build the best building that the money at hand will produce.

**A CHANGE FROM VIOLETS.**

Here's a pathetic picture: A handsome little boy, though pinched of face and large and hungry eyes and a wistful twist to his little mouth, clothed in a ragged suit large enough for two of him, standing on the street corner in a large and wicked city in the pitiless heat of mid-day. He has a heavy basket on his arm and he stands there searching the faces of the passers by watching for a sympathetic purchaser while he calls in his shrill little voice, "Please buy a Ford."

**TURKS ORDERED TO KILL ALL OFFICERS**

**SNIPERS LAY IN WAIT FOR COM-MANDERS OF ALLIES' FORCES.**

Athens, June 3—Correspondence of Associated Press—A great proportion of officer losses to the French and English forces in the Dardanelles are due to the activity of the Turkish snipers, who have special instructions to pick out the officers.

"The danger to officers in this part of the peninsula from snipers is very great. Parties of ten or twenty Turkish sharpshooters crawl past our line at night and either hide in a tree, or get into an abandoned trench or shell hole. There they lie concealed from view, waiting for an opportunity to snipe at some isolated officer passing within range of their rifle. They are instructed to disregard firing upon a private soldier if it involves any danger to themselves, but to miss no chance to bring down an officer."

"In many cases the sniper's eagerness for this duty is assisted by the stories of big loot to be obtained from the pockets of the officers. Some of the snipers who have been caught were found with large sums of British and French money, as well as other property which belonged to officers."

**THE SUMMER TASK.**

The days grow hot and we must sweat with energy unceasing; yea, we must rise and soak the flies, to keep them from increasing. If we pass by a single fly it soon will rear a million, and they will raise, in summer days, four hundred thousand billion. And they'll produce, while running loose, such swarms of filthy critters, such hosts of flies they'll hide the skies—so let us not be quitters. Go forth and swat in humble cot, and in the lordly palace, swat left and right, keep up the fight, until you break a gallop. Strike stalwart blows, and crush the foes, or later you will rue it, and I'll sit here throughout the year and tell you how to do it. I'll sing you lays to cheer your days while you the flies are potting, I'll praise your zeal with gladsome spiel, but I'm too fat for swatting. I'll urge you on from golden dawn until night's shades are falling, but, like most guys whose words are wise, my acts are mostly stalling.

**CURRENT COMMENT**

Indianapolis Star: Although it has long been evident, in spite of official Washington's reiterated lying, that serious differences existed in the cabinet, the full significance of Mr. Bryan's resignation can only be surmised.

Unless Mr. Bryan is hopelessly wrong, it must be supposed that the cabinet sessions have seen more than revealed of a disposition to deal lightly with Great Britain and heavily with Germany.

Nor is it possible in all honesty to blink at the political possibilities of this epochal event. The secretary has removed himself from the embarrassment of his forced loyalty to Mr. Wilson's political fortunes, and is now free to pursue the prohibition propaganda from which he seems to expect so great returns. The president, it has long been suspected, has taken Mr. Bryan's measure, and doubtless will be much relieved at this sudden release from an always awkward situation.

New York Tribune: In forcing an issue with Bryan and compelling the latter to offer his resignation as Secretary of State, President Wilson has performed a high public service. He has sacrificed personal comfort to patriotic duty.

Mr. Bryan courted failure when he took charge of the state department. Probably no one who ever held that office was more unfitted than he was to discharge its delicate and exacting duties. He was himself dimly aware that he was tempting fate. But, entrusted to luck to escape an exposure of his incapacity, he hoped to pull through with the aid of others, if no serious complications in foreign relations should arise.

Boston Advertiser: The announcement of the withdrawal of William Jennings Bryan from the cabinet will, we feel sure, be received with profound satisfaction by most Americans. Bryan was in the cabinet as a master of politics, not as the actual secretary of state. He had been absent from his office so much, he evidently had so little to do with the real work of American diplomacy, that the public has had no confidence in him and for some time it has been plain that he was really a misfit. His going from the cabinet can do no harm, and may help much.

she agrees with her husband's political views she must assist her husband at election time."

Mrs. Katesu did not advocate indiscriminate house to house canvassing in elections, with personal appeals to the sentiment of voters, and all the usual bowing and flattery. It was deplorable that some ladies would go to ignorant voters without knowing themselves the condition of the administration of their country, what the political parties were doing, or even the political views of their husbands. The ladies who resorted to such practices were badly representing their sex.

The educator concluded: "When visiting a voter in person, the lady should speak of the political views of her husband and ask the elector to vote accordingly. The personal visit should be strictly limited to an appeal to the intelligence."

**Says Jap Women Will Not Tolerate Any Further Restriction of Rights.**

Tokio, May 31—Correspondence of Associated Press—The prominence of women in the recent election campaign has started a great deal of discussion on all sides. Some parliamentarians who are pronouncedly against woman suffrage talked of introducing a bill prohibiting women from taking part in campaign canvassing. The law already prohibits women from taking active part in political meetings or discussions or joining any political societies.

Viscount Oura, the minister of the interior, touched upon the woman question when summing up in an address his impressions of the general election. First, said the minister, abstentions from polling were fewer than in preceding elections. In the election of 1912 abstentions amounted to 10 per cent of the voters. The rate in this election came down to 8 per cent contrary to the expectations that the more rigid control exercised by the authorities would increase abstention. Secondly, violations of the election law were also fewer, the number being 4200 against 5900 in the preceding election. Thirdly, there was an alarming increase in the number of women taking part in the campaign. This might be taken as a prelude to women's suffrage, he thought.

Referring to the suffragettes in England, Viscount Oura said he was astonished when on a visit to England a few years ago to see with his own eyes the trouble they caused. Any similar agitation in Japan would require most careful consideration from the point of view of national character.

The absorbing interest in the woman question induced the Tokio Asahi to interview Mrs. Takako Kuyetzu, the well known principal of the Tokio Girls' Commercial school, who has devoted her life to the education of Japanese women.

**Woman Objects.**

If the home department proposed to prevent women from taking part in campaigns, it would be too cruel, Mrs. Katesu said, to be tolerated by the women. She did not believe that Japanese women, whose national habits and customs were different from those of their sisters in England, would initiate their agitations. Japanese women who were educated and had a sense of duty would refrain from following the example of their foreign sisters. She strongly believed, however, that women must keep pace with political thought. Japanese women were angry at being prohibited from attending political meetings. Women ought to know how their own country was administered and it was one of the duties of women to cultivate political knowledge among themselves. The wife of a politician must advance to such a stage in political knowledge as not only to understand the thoughts of her husband, but to discuss politics with him and actually help him.

Mrs. Katesu declared: "Generally speaking, women are better judges of things than men. Men look at things only from one point of view, and the wife should assist her husband in making his outlook more comprehensive. The help of a wife need not be confined to household affairs. When

Paris, June 16—France is in excellent health. None of the epidemics dreaded with the coming of the hot weather have developed. There were 829 deaths in Paris last week against 919 the preceding week and 942 the average for this season of the year. Typhoid fever, the most dreaded of all epidemics, made only three victims. Reports from points where soldiers are concentrated and where there were a great many cases during the winter, show that the epidemic is abating.

Pinkham's Vegetable Compound, and now I can do any amount of work, sleep good, eat good, and don't have a bit of trouble. I recommend Lydia E. Pinkham's Vegetable Compound to every suffering woman."—Mrs. HARRY FISHER, 1625 Doughton St., Nicetown, Pa.

I had a displacement, bearing down, and backache, until I could hardly stand and was thoroughly run down when I took Lydia E. Pinkham's Vegetable Compound. It helped me and I am in the best of health at present. I work in a factory all day long besides doing my housework so you can see what it has done for me. ## CANAL ZONE PEOPLE TO KILL OWN BEEF

**DRESSED MEAT WILL NOT BE SHIPPED TO PANAMA HEREAFTER**  
(Associated Press)

Panama, June 16—The beef consumed in the Panama Canal Zone is to be from cattle slaughtered here, instead of dressed beef from the United States. It has been ascertained that a saving of from 10 to 20 per cent can thus be made. The canal supply department has already begun killing local cattle, in order to test the quality of meat obtainable, and it has further arranged to purchase cattle in other parts of Central America, and even South America, and bring them to the isthmus for final fattening and slaughter.

A cattle buyer, assigned to visit the neighboring countries, will have his purchases brought to the Canal and inspected by a veterinary surgeon, to prevent the introduction of diseased cattle. The latter official is already on his way to the isthmus.

## ROYALTY SHOPS AND CARRIES PARCEL HOME

WAR IS HAVING DECIDED DEMOCRATIC INFLUENCE ON CUSTOMS OF BRITISH.

London: (Correspondence of Associated Press)—The war is exercising a decidedly democratic influence on the manners, customs and habits of English folk who are commonly regarded as belonging to the big "S" section of society. Before the war it was considered most undignified for anybody to be seen carrying a parcel in public. But now even dukes and duchesses, to say nothing of "honorable" and untitled respectabilities, may be seen openly and unashamedly carrying parcels in Piccadilly or Regent street with an air which implies the proud consciousness that they are setting a good example.

They are, in fact, responding to an appeal to shoppers which has been issued by the Home Office through its distributing trade committee. The shoppers were requested:

To shop early.  
Not to expect immediate service.  
To carry home parcels.  
To give more time for the execution of orders.

The reason for this appeal is that so many shop assistants have abandoned service behind the counter to serve their country in the field, that all the big shops are short-handed and have had to take on a lot of untrained help.

About our trembling knees,

will be at their best this and next week (ending the 19th). The berries are exceptionally fine, both in size and flavor owing to the good weather conditions for ripening.

We can not say when the cheapest prices will be made but according to outside markets, good berries are low enough as the growers can ship at present prices and net the usual price here at this writing. And again you will find that the few first pickings of a berry patch are the finest fruit of the season.

The tendency of sugar, jars and tops, is higher. They give the same old excuse—the war.

We are still selling at the old price at present.
